

# uniDock

Never again a charging cable!

## Never again a charging cable!

The uniDock is an universal in-wall charging station for almost all mobile devices. uniDock is made for a regular wall box and operates on main voltage supply. Whether for Apple Lightning, Micro-USB-B or USB-A, you choose your connector by a simple pull,n'turn. Additionally to its charging function, the uniDock contains 4 LED lights used as night light what can be dimmed easily through a touch sensor. If the uniDock is not in use, push it back to its home position. For sure the uniDock also complies to the EU directive 1275/2008 „green power“.
